València Innovation ECOSYSTEM

València Innovation Ecosystem (VIE) facilitates and promotes the city's talent and technological entrepreneurship to strengthen its innovation ecosystem through public and private collaboration.

It is canalized through the technological and innovation hub of La Harinera, where students, researchers, entrepreneurs, investors, SMEs, and corporations come together. This building serves as a connection point between key players and concentrates a significant portion of the work, activities, and collaborations.

**València as
a leading
technological
innovation hub in
the Mediterranean**

Promote the creation of innovative companies

Attract international investment

Attract and retain talent

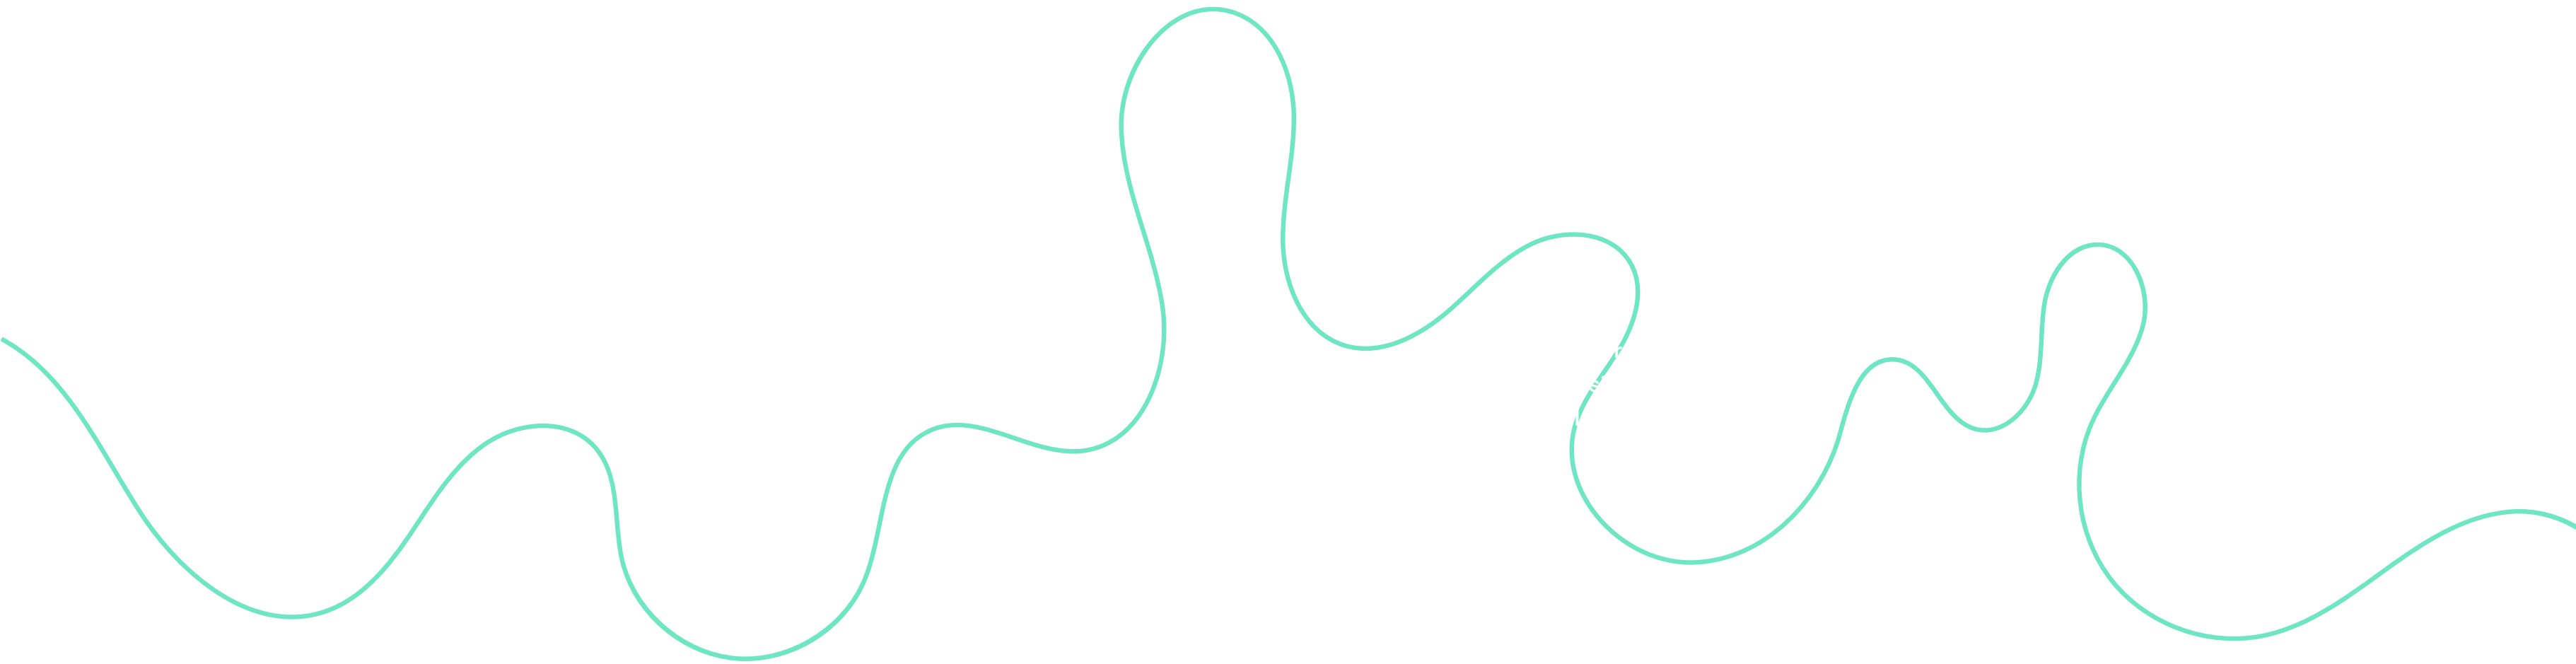

VIE drives all public and private initiatives that help position the city as a leader in technological entrepreneurship.

PROGRAMS

1 Support Programs for the entrepreneurial ecosystem

teabreak

Acceleration Program for SEED startups

€600,000 in grant

€25,000 per startup | 12 months

WORKSHOPS

🕒 45h of training

📅 15 sessions

- 🧩 4 modules
- Business Model and Traction
 - Product
 - People
 - Alliances and Investment

MENTORING

🕒 20h of mentoring

- 👥 10 areas
- Legal
 - Finance
 - Marketing
 - Growth
 - Business Development
 - Automation
 - People
 - Product
 - Technology & Innovation
 - Investment

NETWORKING & EVENTS

Participants will showcase their projects in networking sessions and pitch meetings with the city's leading investment players.

In addition, they will have the opportunity to attend, alongside València Innovation Capital, the most relevant international ecosystem events such as 4YFN in Barcelona, Latitude 59 in Tallinn, South Summit in Madrid, TNW Conference in Amsterdam, Tech BBQ in Copenhagen, VDS in València, and Web Summit in Lisbon.

INVESTMENT

Investment opportunities and potential strategic alliances throughout the program at various events, supported by 1:1 mentoring with investors to take participants' pitches to the next level.

AI Acceleration Program

Aimed at innovative entrepreneurs, preferably in the field of Artificial Intelligence, with early-stage projects or newly created companies. Open to unemployed or inactive individuals, or workers with a new business idea, who show strong motivation and commitment to the program and a desire to improve their skills and abilities to launch their own business project.

🕒 In-person. Thursdays from 4:00 p.m. to 8:00 p.m.

📅 21/11/2024 - 31/03/2025

👤 Benefits

- Active mentors
- Boost for your project
- Business model planning

Acceleration Program for Accessibility and Real Inclusion

An acceleration program aimed at startups and innovative projects that develop technological and social solutions to improve accessibility and the inclusion of people. The goal is to promote a more just, equitable, and universal urban, digital, and social environment through innovation.

📅 01/09/2025 - 31/12/2025

👤 Benefits

- Specialized mentorship in inclusive design, accessibility, and regulation.
- Connection with public and private ecosystems committed to inclusion.
- Access to real-world pilot projects and early-stage funding.

Gaming Acceleration Program

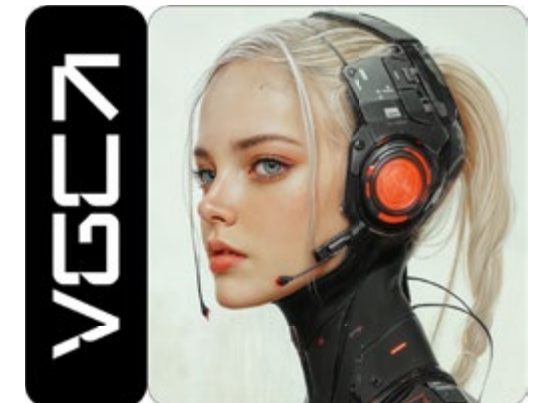

Aimed at entrepreneurs in the video game development sector, as well as unemployed or inactive individuals, or workers with a new business idea. Participants must show strong motivation and commitment to the program, and a desire to improve their skills and abilities to launch their own business project.

🕒 In-person. Wednesdays from 4:00 p.m. to 8:00 p.m.

📅 05/02/2025 - 18/06/2025

👤 Benefits

- Active mentors
- Boost for your project
- Business model planning

SKYLAB Acceleration Program

The startup acceleration program powered by Cámara Valencia with the support of Startup Valencia and CEEI offers you the key elements to boost your business: training, networking, and funding.

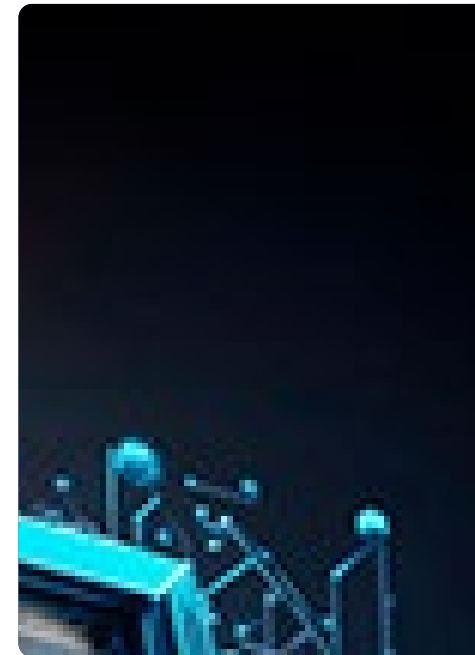

🕒 **2 afternoons a week from 4:00 PM to 9:00 PM**

📅 **Duration of 3 to 5 months**

👤 **Benefits**

- Financing mechanisms
- Specialized contacts + networking
- Cámara de Valencia as a bridge to the corporate world

Cybersecurity Acceleration Program

These programs include training and mentoring sessions with experts, as well as networking activities and visits to leading companies.

The main objective is to foster cybersecurity knowledge within the entrepreneurial ecosystem and strengthen the capabilities of citizens, professionals, and SMEs in this key area.

👤 **Benefits**

- €10,000 distributed in prizes
- Attendee Pass for VDS, the international tech event of Startup Valencia
- Access to OVHcloud Startup Program with a grant (€10,000 in acceleration and €5,000 in incubation) of free cloud credits for finalists

📅 **Duration of up to 6 months**

🕒 **Incubation Program:**

01/04-01/06

Training: Tuesdays, 4:00 - 7:00 p.m.

Mentoring: Thursdays, 4:00 - 7:00 p.m.

🕒 **Acceleration Program:**

Phase 1: 02/05 - 04/06 · **Phase 2:** 02/09 - 04/11

Tuesdays, 4:00 - 7:00 p.m., In-person, La Harinera

Technovation Girls CV

Technovation Girls CV is a global (and completely free) program that helps young people aged 8 to 18 acquire tools to lead in technology and entrepreneurship from an early age.

Through practical challenges, our participants develop mobile applications to solve real problems while learning key skills for their personal and professional development.

📅 **From October to May**

🎯 **Target audience**

→ Girls and teenagers aged 8 to 17 years old

🧪 **Fomento de vocaciones STEM entre niñas y adolescentes**

The participants:

- Form teams with their friends to solve a problem that concerns them.
- Learn to code a solution to that problem.
- Develop a plan to launch a business based on their technology solution.
- Learn how to pitch their ideas to potential investors and partners.
- Present their project at the global Technovation Girls competition.

100% FREE REGISTRATION

STEM Talent Girl (Foundation ASTI)

A transformative experience based on real knowledge of the STEM educational and professional environment, led by female role models and companies in the sector. A format of role models, visits, and firsthand experiences that helps participants understand an accessible reality and a future opportunity that should not be conditioned by biases or cultural contexts; it should only be based on knowledge of opportunities and role models who inspire the participants and help them achieve their dreams.

📅 **8 months duration** | Starts in November

🎯 **Targeted at** female students from secondary school (ESO), high school (bachillerato), or university degree programs

👋 **3 Subprogramas**

① **Science for her (Secondary school)**

Talent identification | Shadowing | Science and technology workshops | Company visits | Participation in events

② **Mentor Woman (High School)**

Inspirational and leadership sessions | Shadowing | Research projects | Personal mentor | Events

③ **Real Work (University)**

Inspirational sessions | Shadowing | Research projects | Personal mentor | Scholarships and internships | Employability training | Events

🕒 **Schedule**

- Approximately 2 sessions per month
- Outside of school hours
- Taking into account the school calendar

100% FREE REGISTRATION

DevWomen, Introduction to Programming

→ 1st Edition  19/11/2024 - 15/02/2025 | Duration: 2.5 months

The course aims to enhance skills in information technologies, digital training, social, circular, and green economy, and practical education for strategic sectors where technology makes these qualifications essential.

→ 2nd Edition  September to December 2025

A new edition of the introductory programming course for women, focused on essential skills to start a career in technology.

Target audience

- Young women under 30 (ages 16 to 29) who are unemployed and beneficiaries of the National Youth Guarantee System

Skills

- Management, organization, and creation of web projects.
- Appearance, web design, and usability.
- Programming, functionality, and web development

Schedule

- Monday to Friday
- Mornings: Tutoring and projects
- Afternoons: Training sessions

100% FREE REGISTRATION

Both programs are driven by the Valencia City Council's Innovation Department, the School of Industrial Organization (EOI), and co-financed by the European Social Fund Plus under the Youth Guarantee Initiative. Co-organized by València Innovation Capital.

Digital Talent Accelerator for Women

A meeting point for young women under 30 who want to give a new boost to their careers and access new job opportunities.

The goal of the program is to enhance the participants' knowledge with a layer of cross-disciplinary training based on new technologies like AI.

 05/05/2025 - 10/06/2025 | Duration: 6 weeks

Target audience

- Young women under 30 years old who are unemployed and beneficiaries of the National Youth Guarantee System
- Women who want to update their professional profiles and adapt them to the new context of digitalization, or complete their training
- Women who are curious about developing their professional careers in technological fields and want to have an overview of all their possibilities before choosing a specific branch

Benefits

- Learning work methodologies
- Belonging to a network of women with similar experiences or situations
- Access to the local innovation ecosystem through our mentors

Schedule

- From Monday to Friday
- From 9:30 am to 1:30 pm
- 1 day online, 4 days in person

Acceleration Program for female entrepreneurs

The Break benefits women entrepreneurs residing in the province of Valencia, supporting women-led entrepreneurial projects with three objectives:

- **Project acceleration:** Workshops, mentoring sessions, and peer validation
- **Sisterhood:** Collaboration and mutual support among women
- **Territorial development:** Open innovation activities to solve territorial challenges

🎯 **Targeted at women with an entrepreneurial project who meet the following requirements:**

- Residents in the province of Valencia
- Over 18 years old, of any nationality
- With an early-stage entrepreneurial project from any sector
- Sufficient level of English to actively participate
- Open-minded and willing to transform themselves, their business, and the planet
- Interested in joining an international community of women entrepreneurs
- Aligned with the values of the Breakers

Duration: 3 months

Includes

- Training and mentoring
- Flights and accommodation in Europe (2 weeks)
- Access to the The Break Fellowship community

CDTM

The **Center for Digital Technology and Management (CDTM)** is an initiative of the Technical University of Munich, in collaboration with the two public universities of Valencia and the City of Valencia.

It is managed by doctoral students who train innovators in the pre-explosive phase, as entrepreneurs or professionals in companies. It works closely with renowned corporates from the industry, as well as with startups and SMEs for the courses.

The external perspectives that students bring are highly valuable for companies, and these companies transfer knowledge to the university students to keep them up to date.

📅 **Application from April 4 to May 4**

DINAPSIS Open Challenge

DINAPSIS Open Challenge connects entrepreneurs and startups with companies and local administrations.

🎯 Challenges 2025

- CHALLENGE 1: Circular economy
- CHALLENGE 2: Sustainable and innovative tourism
- CHALLENGE 3: Green infrastructure and biodiversity

📅 **Registrations: September 2024**
Program: April – December 2025

Climate Launchpad

Climate Launchpad is the world's largest cleantech idea competition, endorsed by **EIT Climate-KIC**. Its goal is to unlock the potential of clean technologies to tackle climate change. Led by **AVAESSEN** for over 10 years, the program follows this format:

- **Boot Camp:** Digital mentoring over several days
- **Intensive Training and National Finals:** Pitch review, value proposition, and business model refinement. Project presentation before a National Jury
- **Online Regional Finals:** Regional-level competitions and networking
- **Global Grand Final in Vienna, Austria (in person):** Top teams from each region present their projects to a panel of experts.

📅 **Registrations: March 2025**
Program: May – November 2025

Sustainable Business Design Program

A business creation program focused on sustainability, centered on Net Zero Emissions Buildings, aimed at deep tech entities to help them adapt their businesses to the market and develop new solutions with a positive impact on society and the environment.

It provides an innovation and experimentation space focused on sustainable urban technologies that address city challenges and improve citizens' quality of life, establishing connections with major European cities to promote the exchange of best practices in urban innovation.

📅 **Starting May 2025**

Climathon

Climathon

València has hosted more than four editions of this global hackathon, an event aimed at developing innovative solutions to local climate challenges. It reflects the city's ongoing commitment to innovation and urban sustainability through the active participation of its community.

📅 **October 2025**

VLC City Lab

The open innovation program VLC City Lab will launch challenges focused on smart and sustainable cities, using the Innovation Solution Puzzle methodology. Each challenge will involve between 1 and 6 companies, promoting an interdisciplinary approach. This diversity enables the use of expertise and resources from companies of different sizes and sectors.

The goal is to create an innovation space where businesses collaborate to develop effective solutions and contribute to the digital and sustainable transformation of cities.

First challenge: "València, a resilient city in the face of extreme climate events."
